Cancellation Policy/No Show Policy
For Doctor Appointments and Massages
Effective August 1, 2019

Cancellation/No Show Policy

Through your patient education we know that you recognize the importance of time and frequency as two of the most import factors in your treatment program. We also understand that there are times when you must miss an appointment due to emergencies or obligations for work or family. However, when you do not call to cancel an appointment, you may be preventing another patient from getting much needed treatment. Conversely, the situation may arise where another patient fails to cancel and we are unable to schedule you for a visit, due to a seemingly "full" appointment book.

If an appointment is not canceled at least **24 hours in advance** prior to the scheduled appointment, you will be charged a **Twenty-five dollar ($25) fee**; this will not be covered by your insurance company. This ($25) fee will be added your account and you will be responsible to provide payment on your next visit.

_____ initial

Scheduled Appointments

We understand that delays can happen however we must try to keep the other patients and doctors on time. If a patient is 15 minutes past their scheduled time we will have to reschedule the appointment.

NOTICE OF PRIVACY PRACTICES

THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN ACCESS THIS INFORMATION.

PLEASE REVIEW CAREFULLY.

This Notice of Privacy Practices describes how we may use and/or disclose your protected health information ("PHI") to carry out treatment, payment, or health care operations and for other purposes required by law. It also describes your rights to access and control any PHI that we have about you. PHI is information about you, including demographic, that may identify you and that relates to your past, present, or future physical or mental health and related services.

We are required, by law, to maintain the privacy of PHI and provide individuals with notice of our legal duties and privacy practices with respect to such information. We are required to abide by the terms of the Notice of Privacy Practices currently in effect.

We reserve the right to change the terms of this Notice. The new notice provisions will be effective for all PHI that we maintain at that time. Upon your request, we will provide you with a paper copy of any revised Notice of Privacy Practices by mail or at the time of your appointment, even if you agreed to receive the Notice of Privacy Practices electronically.

Permitted Use & Disclosure of Your Protected Health Information ("PHI"):

Your physician, office staff, and others outside the office that are involved in your care may use and/or disclose your PHI for the purpose of providing health care services to you. We have listed some of the reasons why we might use or disclose your PHI and some examples of the types of uses or disclosures below. Not every use or disclosure is listed, but all of the ways that we are permitted to use and disclose information will fall into one of the following categories.

Treatment: We will use and disclose your PHI to provide and coordinate your health care and any related services. This includes the coordination or management of care with a third party that has already obtained your permission to have access to your PHI. For example, we would disclose your PHI, as necessary, to a health agency that provides care to you. In addition, we may disclose your PHI to another health care provider (e.g., a specialist or laboratory) who, at the request of your physician, is involved in your care by providing assistance with your health care diagnosis or treatment.

Payment: We may use and disclose your PHI for billing and payment of the treatment that you received here. For example, we may use or disclose your PHI to your insurance company about a service you received so that your insurance company can pay us or reimburse you for the service. We may also ask your insurance company for prior authorization for a service to determine whether the insurance company will cover that service.

Health Care Operations: We may use and disclose your PHI to support the business activities of (Add Practice Name). These activities may include, but are not limited to, business activities, quality assessment activities, marketing, fundraising, research and the sale, transfer, merger, or consolidation of all or part of our office, related due diligence as required by law, and employee review activities. Certain direct or indirect exchanges of your PHI may result in remuneration, financial or otherwise. For example, we may use a sign-in sheet at the registration desk where you are asked to sign your name and indicate your physician. We may also call you by name in the reception when your physician is ready to see you. We may use your PHI to contact you (i.e. by telephone and/or mail) to provide appointment reminders or information about treatment alternatives or other health related benefits and services that may be of interest to you or as required in the event that your PHI has been compromised.

We will share your PHI with third party "business associates" that assist in practice activities, such as billing. Whenever an arrangement between our office and a business associate involves the use or disclosure of your PHI, we will have a written contract that contains terms that will protect the privacy of your PHI. We are prohibited from using or disclosing your genetic information for underwriting purposes, however, limited exceptions for long-term care underwriting purposes may apply.

Use & Disclosure of Your Protected Health Information ("PHI") that Requires Your Written Authorization:

You have the opportunity to agree or object to the use or disclosure of all or part of your PHI.

Your Rights: You have the right to request restrictions on certain uses and/or disclosures of your PHI. You may ask us not to use and/or disclose any part of your PHI for the purposes of treatment, payment or healthcare operations. You may request that information about your care be withheld from your health plan if you pay for your care out-of-pocket and in full. Please discuss any restriction you wish to request with your physician.

You may request an amendment to the use or disclosure of the PHI. Your physician may, using his/her professional judgment, determine whether the disclosure is in your best interest. If your request for an amendment is denied, you have the right to file a statement of disagreement with us and we may prepare a rebuttal to your statement and will provide you with a copy of any such rebuttal. If your physician does agree to the requested restriction, we may not use or disclose your PHI in violation of that restriction unless it is needed to provide emergency treatment. Requested amendments and rebuttals may be placed in your medical records.

You have the right to inspect and copy your PHI. Under federal law, however, you may not inspect or copy the following records; psychotherapy notes; information compiled in reasonable anticipation of, or use in, a civil, criminal, or administrative action or proceeding, and PHI that is subject to law that prohibits access to PHI. In some circumstances, you may have a right to have this decision reviewed.

You have the right to receive an accounting of the specific information regarding the disclosures of your PHI that occurred after April 14, 2013. This right applies to disclosures for purposes other than treatment, payment or healthcare operations as described in this Notice of Privacy Practices. It excludes disclosures we may have made to you, a facility directory, to family members or friends involved in your care, for notification purposes, or disclosures you have authorized. The right to receive this information is subject to certain exceptions, restrictions and limitations.

Other uses and disclosures of your PHI will be made ONLY with your written authorization, unless otherwise permitted or required by law as described below. You may revoke this authorization, at any time, in writing, except to the extent that (Add Practice Name) has taken an action in reliance on the use or disclosure indicated in the authorization.

In the event that you need to file a complaint regarding the use and/or disclosure of your PHI or if you have any questions about the content of this Notice of Privacy Practices, or if you need to contact us about any of the information contained in this Notice of Privacy Practices, the Privacy Contact Person is:

Primary: _____

Secondary: _____

Address

Phone

You may file a complaint with us or to the Secretary of the United Stated Department of Health and Human Services if you believe your privacy rights have been violated by us. You may file a complaint with us by notifying our Privacy Contact Person of your complaint. We will not retaliate against you for filing a complaint.

All requests for reviews, restrictions, amendments, and alternative communications means or locations, must be in writing and state the specific requested action and name any applicable persons for which the request may pertain.

We may use and disclose your PHI in the following instances:

Inmates: We may use or disclose your PHI if you are an inmate of a correctional facility and your physician created or received your PHI in the course of providing care to you.

Others Involved in Your Healthcare: We may disclose to a family member or friend that you identify, your PHI that directly relates to that person's involvement in your health care. We may use or disclose your PHI to notify or assist in notifying such persons of your location, general condition or death. We may disclose your PHI to an authorized public or private entity to assist in disaster relief efforts and to coordinate uses and disclosures to persons involved in your health care. For any persons you have identified for notification purposes as described in this Notice of Privacy Practices, you may request that any part of your PHI not be disclosed to that individual.

Emergencies: We may use or disclose your PHI in an emergency treatment situation. If this happens, your physician shall try to obtain your consent as soon as reasonably practicable after the delivery of treatment. We may use or disclose your PHI if your physician or another physician at (Add Practice Name) is required by law to treat you and the physician has attempted to obtain your consent but is unable to do so due to substantial communication barriers, and the physician determines, using his/her professional judgment, that under the circumstances it is your intent to consent to the physician's use or disclosure or your PHI.

Psychotherapy notes (if applicable): We may use and/or disclose your psychotherapy notes for treatment, payment, or health care operations; for training purposes within our office; and as legally allowed and/or required by law.

Uses & Disclosures That Do Not Require Your Consent, Authorization or Opportunity to Object:

We may use or disclose your PHI in the following situations without your consent or authorization.

Required By Law: We may use and/or disclose your PHI to the extent that is required by law. The use or disclosure will be made in compliance with the law and will be limited to the relevant requirements of the law. We may disclose your PHI in response to an order of a court or administrative tribunal (to the extent such disclosure is expressly authorized), and in certain conditions in response to a subpoena, discovery request or other lawful process. You will be notified, as required by law, of any such uses or disclosures.

Public Health: We may disclose your PHI for public health activities and purposes to a public health authority to collect or receive the information. The disclosure will be made for the purpose of controlling disease, injury or disability. We may also disclose your PHI, if directed by the public health authority, to a foreign government agency that is collaborating with the public health authority.

Communicable Diseases: We may disclose your PHI, if authorized by law, to a person who may have been exposed to a communicable disease or may otherwise be at risk of contracting or spreading the disease or condition.

Health Oversight: Oversight agencies include government agencies that oversee the health care system, government benefit programs, other government regulatory programs and civil rights laws. We may disclose your PHI to a health oversight agency for activities such as audits, investigations, and inspections.

Abuse or Neglect: We may disclose your PHI to a public health authority that is authorized by law to receive reports of child abuse or neglect. In addition, we may disclose your PHI if we believe that you have been a victim of abuse, neglect or domestic violence to the governmental entity or agency authorized to receive such information. In this case, the disclosure will be made consistent with the requirements of applicable federal and state laws.

Food and Drug Administration: We may disclose your PHI to a person or company required by the Food and Drug Administration to report adverse events, product defects or problems, biological product deviations, track products; to enable product recalls; to make repairs or replacements, or to conduct post marketing surveillance, as required.

Law Enforcement: We may also disclose your PHI for law enforcement purposes. Law enforcement purposes include (1) legal processes and otherwise required by law, (2) limited information requests for identification and location purposes, (3) information as it pertains to victims of a crime, (4) suspicion that death has occurred as a result of criminal conduct, (5) in the event that a crime occurs on the premises of the practice, (6) in a medical emergency (not on the Practice's premises) and it is likely that a crime has occurred, and (7) to prevent or lessen a serious and imminent threat to the health or safety of a person or the public.

Coroners, Funeral Directors, and Organ Donation: We may disclose your PHI to a coroner or medical examiner for identification purposes, for determining cause of death or for the coroner or medical examiner to perform other duties. We may also disclose PHI to a funeral director in order to permit the funeral director to carry out his/her duties. We may disclose such information in reasonable anticipation of death. PHI may be used and disclosed for cadaver, organ, eye or tissue donation purposes.

Research: We may disclose your PHI to researchers when their research has been approved by an institutional review board that has reviewed the research proposal and established protocols to ensure the privacy of your PHI.

Military Activity and National Security: We may use or disclose PHI of individuals who are Armed Forces personnel (1) for activities deemed necessary by appropriate military command authorities; (2) for a determination by the Department of Veterans Affairs of eligibility for benefits, or (3) to foreign military authority if a member of that foreign military services. We may also disclose PHI to authorized federal officials for conducting national security and intelligence activities, including for the provision of protective services to the President or others legally authorized.

Workers' Compensation: Your PHI may be disclosed by us as authorized to comply with workers' compensation laws and other similar legally-established programs.

Data Security: Patient records are maintained on paper charts. The charts are secured in locked cabinets with limited access. We are required to notify affected individuals following a breach of secured PHI.
